The 200 survey recordings published in this report involve hundreds of transplant hospitals. Answered by the call were the hospital director, secretary, transplant center, director of the transplant department, chief professor, doctor, transplant ward, doctor and nurse. They are all participants and insiders of organ transplants.

Recordings and texts of 200 survey calls are sorted by survey time and edited into a time index for easy viewing.

In order to facilitate readers to understand the contents of these surveys, and strive to be concise, we have written a summary of the contents of the 200 telephone surveys, sorted out in nine chronological order and presented as follows.
