Subject(s): Liang Guiyou, President of Guizhou Medical University and Former President of Affiliated Hospital of Zunyi Medical School

Translation

Liang Guiyou: Hello?

Investigator: Hi, how are you, President Liang?! Sorry for bothering you at this late hour. I'm from Zhejiang and one of my friends who works in my company is from Zunyi. He has some problems with his kidney. The doctor here told him to get a liver transplant, but he preferred your hospital as it may be a little bit less expensive. I want to know how much it approximately costs for a liver transplant.

Liang Guiyou: You just give me his phone number, uh, you pass him my number and ask him to call me directly.

Investigator: He is currently in the hospital, as he is in a serious condition...

Liang Guiyou: Oh, just tell him to call me, ask him to call me, all right?

Investigator: Ask him to call himself, right?

Liang Guiyou: Ah, yes, yes, ask him to call me directly, yes, ah.

Investigator: I found your number online though. He asked me to check for him. How much will it cost to replace a kidney?

Liang Guiyou: Ah, I can't hear you well...perhaps you are asking about the price for a kidney transplant, right?

Investigator: Right, right.

Liang Guiyou: Ah, we currently charge around a little over 100,000 yuan, or about 120,000 yuan.

Investigator: Oh, around 120,000 yuan. That's much less than what they offer in Zhejiang.

Liang Guiyou: We can consider other options if that's still a problem.

Investigator: Oh, yes there might be some hardships, but there is financial aid, right?

Liang Guiyou: Ah, yes, that's right.

Investigator: Oh, will the hospital be able to provide an ambulance if he decides to come?

Liang Guiyou: No, I don't think so. But I'm no longer in Zunyi. I'm in Guiyang now.

Investigator: Oh, you're currently in Guiyang.

Liang Guiyou: I no longer work at the hospital; I work at the university now.

Investigator: Uh, you're not working at the hospital, is that right?

Liang Guiyou: I'm not in the hospital. Now I'm the president of Guizhou Medical University.

Investigator: Oh, you are currently a president of the university, then you must have more resources now as a president! Could you provide us a few the names of less expensive hospitals, those with better techniques (and care), or any doctors (you know well)?

Liang Guiyou: Regarding the skills, both Zunyi and Guiyang are good. You tell him to call me, ask him to give me a call, how is that?

Investigator: Oh, oh, then the skills are not a problem. So what if he comes...?

Liang Guiyou: Ah, no problem.

Investigator: How about the wait time? How long does he need to wait for surgery?

Liang Guiyou: It depends, it depends. Ask him to call me.

Investigator: Ah, so approximately, in a half a month, is it possible to get it done?

Liang Guiyou: Ah, it should be fine. It can be done in three months for sure.

Investigator: Can it be done in half a month? Is that possible?

Liang Guiyou: Uh, Yes, yes, no problem.

Investigator: No problem, right? Then if...

Liang Guiyou: You go ask him to call me.

Investigator: He is too weak and tired to speak now. I am his best friend. He works at my company, so I can make all the decisions for him. I need to prepare all the money for him if he comes, you know. I need to lend him the money, as he doesn't have enough. So, I was hoping (Liang Guiyou: Oh)...He takes on a critical role (in my company) and is quite experienced and skillful. I must ask for a kidney organ of good quality and a well-experienced surgeon, you know? Well....

Liang Guiyou: Yes.

Investigator: If this is okay, then how about the organ sources? Can you find us a healthier, younger and better one (organ)?

Liang Guiyou: I can get it; I can find one.

Investigator: You can get one. Good. It would be great if any of your classmates could refer a doctor. Then we ask the doctor to find a donor (who practices meditation, a.k.a. Falun Gong practitioner). Can he find a practitioner (Falun Gong) donor for us?

Liang Guiyou: Ah! Listen, you go ask him to call my cell phone, okay?

Investigator: I will MMS you his pictures and his medical records, whatever (I have), okay?

Liang Guiyou: Uh, I need to ask him in person, all right.

Investigator: Oh, I will MMS, can you receive MMS?

Liang Guiyou: Ah, ah, sure.

Investigator: Can you receive MMS? Uh, hello?
